Dale Bandy is an inspired artist with over 40 years of experience. He wears many hats including lead vocals, guitarist, songwriter, band leader, and producer. Dale Bandy can be characterized as a chameleon of The Blues, moving effortlessly from Traditional to 50's style, to Blues Rock, to his own unique take on Contemporary Blues. This debut solo release by Dale Bandy encompasses the embodiment of Dale's depth of musical understanding and is a glimpse into future releases by this multifaceted artist.

"blue." is Dale's debut release as a solo artist, and what a release it is!

The album "blue." has been inspired by real life events and it's emotional content is self evident. We've all had moments where we've gone too far and hurt the ones we love. This is sentiment was embodied musically in the song "If I Could Only Take It Back". Luckily this song was accepted as his apology.

"My Bad Reputation" is a hyped up version of courting as woman as a much younger man. "Get It On" is a song that anyone who been in a long term relationship can relate to as it paints a picture of the ebb and flow of love on any given evening at home.

"Country Star" was written in a dream. The dream was set in a Nashville recording studio and Dale was directing and teaching the band the song. As he counted off the band he suddenly awoke and ran to his studio to record the song.
